Professional Summary

Data Scientist and Business Analyst with expertise in **machine learning, predictive modeling, ETL pipelines, and data visualization**. Skilled in Python, SQL, and cloud platforms (AWS, Azure) with proven ability to deliver end-to-end solutions, from data ingestion to deployment. Experienced across healthcare, finance, education, and technology, with portfolio projects published on GitHub and Tableau.

Skills

- **Data Analysis & Visualization:** Python (Pandas, NumPy, Matplotlib, Seaborn), Tableau, Power BI, Looker
 - **Machine Learning & AI:** scikit-learn, TensorFlow, PyTorch, Keras, XGBoost, NLP, Time Series Forecasting, Recommendation Systems
 - **ETL & Big Data:** Apache Airflow, Spark, Hadoop, Databricks, Docker, Kubernetes
 - **Cloud Platforms:** AWS (EKS, Lambda, Redshift, S3, SageMaker), Azure (Data Factory, Synapse, Databricks)
 - **Databases:** PostgreSQL, MySQL, SQL Server, Snowflake
 - **Other:** Agile, Scrum, Test-Driven Development (TDD), Data Cleaning, Statistics
-

Professional Experience

STEM Teacher | HD Tech Holding Inc. | Brooklyn, NY | Oct 2024 – Aug 2025

- Taught digital design, game development, and WordPress development.
- Introduced students to **3D modeling**, Cricut Design Space, and interactive game creation with Kodu.

Data Scientist – AI | Outlier | Brooklyn, NY | Nov 2023 – Oct 2024

- Designed, trained, and deployed **machine learning models** improving data processing by 50%.

- Implemented anomaly detection, predictive modeling, and root cause analysis.
- Collaborated with engineers and analysts to integrate AI strategy across teams.

Business Data Analyst | Maryland Dept. of Health | Remote | Sep 2022 – Jun 2023

- Developed **predictive models in AWS SageMaker**, increasing forecast accuracy by 30%.
- Automated **ETL pipelines** using Python, SQL, and Airflow.
- Implemented **data governance policies** and quality assurance processes.

IT Support / Data Analyst | NY Institute of Technology | New York, NY | Sep 2021 – Sep 2022

- Built **dashboards and forecasting models** in Python, SQL, and Power BI.
- Improved operational efficiency by 15% through workflow automation.

IT Support / Data Analyst | Franklin D. Roosevelt High School | Brooklyn, NY | Sep 2018 – Jun 2020

- Collected, cleaned, and visualized large datasets for decision-making.
- Applied **AWS SageMaker predictive modeling** to improve academic performance tracking.

Financial Analyst (Part-Time) | Primerica | Brooklyn, NY | Feb 2014 – Sep 2018

- Built **financial forecasting models** for revenue, expenses, and cash flow.
 - Delivered variance analysis and **data-driven recommendations** to leadership.
-

Selected Projects

- **Airbnb Data ETL & Visualization** – Automated ingestion with SQL/Python and designed Tableau dashboards highlighting seasonal occupancy trends.
Tableau Dashboard: <https://public.tableau.com/app/profile/ja.yuan.pendley/vizzes>
- **King County House Sales Dashboard** – Built interactive Tableau dashboard analyzing housing price trends in King County, WA.
Tableau Dashboard: public.tableau.com/profile/jayuan
- **Credit Card Approval Prediction** – Applied feature engineering and ML classification models to predict approvals.
GitHub Repository: github.com/jayuan-pendley
- **Azure-Snowflake ETL Automation** – Designed automated ETL pipeline with Azure Data Factory and Snowflake, reducing manual prep by 40%.
GitHub Repository: github.com/jayuan-pendley

Education

M.S. Data Science – New York Institute of Technology

B.S. Computer Systems Technology – New York City College of Technology

Certifications

- Google Advanced Data Analytics
- AWS Cloud Technical Essentials | Architecting Solutions on AWS
- Microsoft Azure Databricks for Data Engineering (DP-203)
- SQL Data Wrangling, Analysis, and A/B Testing
